The first edition of the “**NIGHT Hawk**”, the battalion newsletter, was published on 18 January 1963, at Fort Bliss, Texas. The purpose of the newsletter was to keep the personnel informed of events, especially those within the Battalion.

The Battalion continued publishing the NIGHT Hawk newsletter when they deployed to Vietnam. The newsletter was nothing fancy or professional. It was published for the troops by the troops. The publishing principal used was “KISS” keep it simple soldier. The only copy of the NIGHT Hawk newsletter is displayed on the Battalion website courtesy of Richard Carlander.
